

CONSTRUCTION INDUSTRY SERVICES OVERVIEW

ARE YOUR EMPLOYEES ENGAGED IN WORKPLACE SAFETY?

- It isn't enough for your employees to simply be aware of safety standards and common construction hazards, such as falls from height and slips, trips or falls. Ensure that your employees are dedicated and adhere to safety requirements in order to cut costs related to injury and illness. Holloway Insurance Services Ltd can provide you with a construction-specific employee safety manual, employee training programmes, various employee-facing articles and sample workplace policies.

ARE YOU PREPARED FOR AN UNNANOUNCED HSE INSPECTION?

- If an HSE inspection finds violations at one of your construction sites, you could face fines and see your reputation plummet. We can offer you construction-specific compliance resources, including guidance directly from the HSE and a monthly HSE newsletter, offering the latest in regulations and prosecutions.

DO YOU HAVE PROPER RISK MANAGEMENT PRACTICES IN PLACE?

- Even the most forward-thinking construction companies experience losses, so it's important to be ready with industry-specific risk management practices to maintain a safe and productive workplace. Our library of documents includes a quarterly, industry-specific risk management profile, Risk Insights series and step-by-step checklists.

EMPLOYEE SAFETY MANUAL

Educate your employees about potential risks, and identify relevant safety policies and procedures that support a safe work environment, specific to the construction industry. The safety manual is comprehensive, but still offers you the opportunity to include your own health and safety content.

RISK MANAGEMENT GUIDANCE

Be sure you are prepared for the variety of industry-specific risks both you and your employees face while on-site. Our Construction Risk Insights series offers helpful information on relevant risks and proper risk management, while our various training materials and programmes highlight best practices to stay safe and mitigate risks on-site. Also, our industry-specific checklists allow employers to ensure they are adhering to necessary safety requirements.

INDUSTRY-SPECIFIC NEWSLETTERS

Stay updated on recent HSE news and prosecutions, as well as top tips to keep workers healthy and safe with our monthly HSE Newsletter. In addition, learn how the latest happenings in the industry can serve as examples to improve your risk management strategy and cover selection with our quarterly Construction Commercial Insurance Profile.

EMPLOYEE SAFETY COMMUNICATIONS

Make safety top of mind for your employees with our Construction Playing it Safe series and Safety Matters series, which both cover a variety of industry-specific topics. Each article offers an in-depth understanding of a safety concern that your employees may encounter and explains how to avoid unnecessary risks.

HSE GUIDANCE AND SAMPLE POLICIES

Use our simple guides for compliance advice directly from the HSE, as well as our sample policies regarding a variety of industry topics, such as return to work.
